On January 15, 2019, the offender reported to the probation office in Richland, Washington, and a random drug test was administered. When the urine sample provided returned presumptive positive for the presence of methamphetamine and marijuana the offender noted he had returned home on January 10, 2019, to find his wife passed out on the couch of his home with methamphetamine by her. He went on to admit he obtained the methamphetamine and used it. The sample was forwarded to Alere to be confirmed for both methamphetamine and marijuana and an additional test was requested for suboxone.

On January 18, 2019, the sample returned positive for the presence of marijuana, suboxone, and methamphetamine. The methamphetamine was addressed in the January 17, 2019, petition and violation report. The positive finding for the marijuana and suboxone was unknown until the sample was confirmed on January 18, 2019.

The U.S. Probation Office respectfully recommends the Court to incorporate the violation contained in this petition in future proceedings with the violations previously reported to the Court.

I declare under penalty of perjury that the foregoing is true and correct.
